Homo Zapiens Feb 24 2023 The collapse of the Soviet Union has opened up a huge consumer market, but how do you sell things to a generation that grew up with just one type of cola? When Tatarsky, a frustrated poet, takes a job as an advertising copywriter, he finds he has a talent for putting distinctively Russian twists on Western-style ads. But his success leads him into a surreal world of spin doctors, gangsters, drug trips, and the spirit of Che Guevera, who, by way of a Ouija board, communicates theories of consumer theology. A bestseller in Russia, *Homo Zapiens* displays the biting absurdist satire that has gained Victor Pelevin superstar status among today's Russian youth, disapproval from the conservative Moscow literary world, and critical acclaim worldwide.

Crane Safety on Construction Sites Jan 23 2023 Crane Safety on Construction Sites (ASCE Manuals and Reports on Engineering Practice No. 93) was written to aid the construction industry in the management of crane operations. Crane operations in construction range from unloading and setting equipment on a one-time basis to using numerous cranes that perform multiple tasks on larger complex projects. This manual addresses these variables by clearly defining and assigning crane management responsibilities. It discusses issues such as safety plans, responsibilities, supervision and management, operations, training, manufacture, crane safety devices, and regulations in some detail as they relate to crane management. Appendixes are provided that list additional resources, manufacturers of crane safety devices, and explore case studies of crane accidents.
