Jesus Research offers students and scholars annotated bibliographies for all of the major areas of critical scholarship in the historical Jesus, providing complete bibliographical information, annotations, and brief introductions to the various subjects. The work is an indispensable tool for research in this important field of study. Historian James. S. Olson has prepared a comprehensive, annotated bibliography of the history of cancer. The emphasis of this work is not so much on the medical aspects of cancer as it is on the historical documentation of the disease: its etiology, pathology, epidemiology, forms and manifestations, and the men and women who have distinguished themselves in the study and treatment of the disease. The book opens with a section devoted to the historical background of our knowledge of cancer and important medical/nonmedical personalities. The next section deals with the etiology of cancer--its genesis, epidemiology, pathology, and research and control. The largest part of the bibliography is devoted to the individual malignant diseases. Olson concludes with sections on the diagnosis and treatment of cancer, clinical services, and cancer institutions. The citations include books, articles from scholarly and general periodicals, medical and government publications, and primary and secondary sources. The annotations are descriptive. An important contribution to the study of medical history, Olson's bibliography will be of interest to scholars, students and those involved in the medical and scientific study of cancer. Excerpt from An Annotated Bibliography Dealing With the Classification and Instruction of Pupils to Provide for Individual Difference The references given have been classified into two main divisions. The first part of the bibliography deals with discussions of and provisions for individual differences that involve the use of standardized tests of general intelligence or achievement. The second part contains references about provisions and discussions

that do not involve the use of such tests. Articles that deal with both sorts of classification, that based on the results of tests and that upon some other basis, are included in the first part. This collection of seventeen critical essays commemorates 25 years of writing by Harold Pinter. The essays are original pieces by many of the leading contemporary drama scholars in America and Britain which, taken together, present a fuller picture of the dramatist's canon and a better understanding of what he tries to do and how he tries to do it. A thorough, balanced compilation, this book is the first comprehensive annotated bibliography on Alabama since 1898. Four authors provide an interdisciplinary approach representing the fields of history, geography, political science, literature, American studies, and library science. Although political, military, and socioeconomic history are well represented, numerous entries on agriculture, art, education, environment, folklore, law, literature, medicine, newspapers, religion, and travel are also included. The bibliography is arranged chronologically by periods in Alabama history with topical subdivisions under each period. Concise but descriptive annotations supplement the titles to delimit the time, place, and topical focus of the individual entry. Originally published in 1976, the bibliography presented here

was intended to provide a useful research tool for scholars and students of perception. The primary concentration of the authors' efforts has been on the philosophical literature during the period of 1935-1974. *Bibliografie van het werk van Rex Nettleford*. Bevat ook Nettleford's choreografie voor het National Danstheater van Jamaica. Over 1000 references to monographic and serial publications. Intended to inform the reader as to the scope and depth of the stress burnout syndrome. Alphabetical arrangement by authors. Each entry gives bibliographical information and lengthy annotations. Contains lists of signs and symptoms, courses and sources, and coping strategies. Originally a Unesco project, this annotated bibliography results from more than 4,600 requests to media scholars and researchers for research reports, publications, and other information relating to violence and terrorism. Although there is an international cast to the materials, most are from the U.S. Even though violence and terrorism permeate our myths and legends, there is increasing concern with their effect on viewers. This bibliography is particularly timely, with entries through spring 1987. The sections of the work (mass media content, mass media effects, pornography and the media, terrorism and the media) give a better idea of the work's scope than does the title. Choice [T]he annotations are clearly written, succinctly descriptive of the original work's research with test groups, and evaluative of research results. *Reference Books Bulletin* This bibliography focuses on research and scholarly works relating to violence and terror. Consisting primarily of articles published in scholarly journals and books, this comprehensive work examines major topics such as violence and mass media content, violence and mass media effects, terrorism and the mass media, and pornography. Also included are articles from popular journals, reports published by the United States and other governments,

conference papers, and dissertations. Each entry consists of the bibliographic citation and a short abstract; many of the sources include studies from other countries where relevant research has been conducted. The compilers' introduction provides a clear definition of violence and terrorism as they are dealt with in this volume and offers an interesting overview of various aspects of the subject. In addition to novels, the bibliography includes works which may be considered

under the rubric of short novel, such as novela corta, which, in spite of its short length, partakes more of the novel than the short story in its basic literary conception, plot development, and narrative scope. Where possible, all editions of each novel or work are cited, as well as translations into foreign languages, and citations may be followed by one or more critical commentaries or select bibliographies of additional studies on the work or its author. This exhaustive work serves as the definitive guide to this genre in Argentine literature. A must for all collections that support comparative literature studies, Hispanic studies, or as a guide to popular reading. This is an annotated bibliography of 20th century books through 1983, and is a reworking of American Studies: An Annotated Bibliography of Works on the Civilization of the United States, published in 1982. Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America, it focuses on books that have an important cultural framework, and does not include those which are primarily theoretical or methodological. It is organized in 11 sections: anthropology and folklore; art and architecture; history; literature; music; political science; popular culture; psychology; religion; science/technology/medicine; and sociology. Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph-length, non-evaluative annotations. Includes author, title, and subject indexes. ISBN 0-521-32555-2 (set) : \$150.00. In addition to historicizing, recording, and defining the nature of the 20th century's most significant textual and bibliographical achievements, this volume offers a useful introductory guide to bibliography and textual criticism and their scholarly evolution. Supplemented with expansive author, subject, and title indexes, the book provides annotated entries for more than 750 monographs and articles

published during the 20th century. Miljoenen Noord-Amerikanen werken voor een hongerloon. Barbara Ehrenreich besloot zich bij dit leger van de slechtbetaalden aan te sluiten. Ehrenreich verhuisde naar Florida en vervolgens naar Maine en Minnesota. Daar huurde ze de goedkoopst mogelijke kamers en werkte ze als serveerster, kamermeisje, schoonmaakster, bejaardenhulp en verkoopster. Al gauw moest ze vaststellen dat de 'minste' baantjes een enorme mentale en lichamelijke kracht vereisen. En een baan is niet genoeg: wie in Amerika graag een dak boven zijn hoofd heeft, zal er ten minste twee laagbetaalde banen op na moeten houden. Toch werd Ehrenreich getroffen door het optimisme en de

solidariteit onder de laagbetaalden. De achterkant van de Amerikaanse droom is een indrukwekkend portret van slechtverdienende Amerikanen in al hun vasthoudendheid, angst en verrassende vrijgevigheid. Product information not available.
