Advances in Corpus-Based Contrastive Linguistics Dec 23 2022 Contrastive studies have experienced a dramatic revival in the last decades. By combining the methodological advantages of computer corpus linguistics and the possibility of contrasting texts in two or more languages, the structure and use of languages can be explored with greater accuracy, detail and empirical strength than before. The approach has also proved to have fruitful practical applications in a number of areas such as language teaching, lexicography, translation studies and computer-aided translation. This volume contains twelve studies comparing linguistic phenomena in English and seven other languages. The topics range from comparisons of specific lexical categories and word combinations to syntactic constructions and discourse phenomena such as cohesion and thematic structure. The studies highlight similarities and differences in the use, semantics and functions of the compared items, as well as the emergence of new meanings and language change. The emphasis varies from purely linguistic studies to those focusing on practical applications.

The 2010 Broadway revival of Arthur Miller's *A View From the Bridge* gave Johansson some of her best reviews for her acting, and she received a Tony Award for Best Performance by a Featured Actress in a Play. ...It was described by the New York Times as a misbegotten Hollywood-minded screen adaptation with an excruciating divide between the film's British actors (led by Tom Wilkinson and Stephen Campbell Moore), who are comfortable delivering Wilde's aphorisms . . . and its American marquee names, Helen Hunt and Scarlett Johansson, [who have] little connection to the English language as spoken in the high Wildean style. ... New York magazine said, Johansson doesn't have the natural buoyancy to play a screwball Nancy Drew, [but] she's smart enough to know what's needed (a young Diane Keaton), and manages to rouse herself, while USA Today criticized her delivery of Allenesque one-liners as clunky, and sometimes, she seems in over her head playing opposite Allen. Ingemar Johansson Jan 24 2023 Ingemar Johansson's right hand--dubbed "The Hammer of Thor"--was the most fearsome in boxing, and Johansson's three fights with Floyd Patterson rank among the sport's classic rivalries. Yet most fans know little about the Swedish playboy who won the world heavyweight championship with a shocking third round knockout of Patterson and held it for six days short of a year (1959-1960). During his reign, the raffish "Ingo" hit fashionable nightspots on two continents, romanced Elizabeth Taylor, and refused to kowtow to the mobsters who controlled boxing. This first-ever biography of Johansson chronicles his fistic triumphs as a Goteborg teen prodigy, his humiliating disqualification for "cowardice" at the 1952 Olympics, his storybook romances with Birgit Lundgren and Edna Alsterlund and his post-career life and tragic early dementia.

The Transformation of Sexuality Oct 17 2019 How do contemporary young people construct their sexual identities? Are young people sexually liberated, or is human sexuality increasingly controlled and manipulated by commercial forces? Thomas Johansson explores the construction of sexual identities by young people as part of a wider process of identity construction, combining the work of key authors such as Elias and Foucault with original and revealing empirical material drawn from an extensive survey of the views of 1300 sixteen to nineteen year olds, combined with a number of qualitative in-depth interviews with different sexual subcultures. Topics covered include fidelity and infidelity, love, homosexuality, pornography and beauty ideals. Designed to look beyond media images and popular prejudices the book illustrates how young people of both genders, of different nationalities and of different group allegiances view and relate to their own sexuality.

Scarlett Johansson Nov 22 2022 Despite her prominence as an actress, fashionista, social activist and the "sexiest woman in the world," Scarlett Johansson has kept her life private. Her work ethic has been strong since her film debut in *North* (1994) at age 10. Then in 2003, *Lost in Translation* brought kudos and launched her adult career. While she never abandoned the independents, Johansson became a leading lady in very big films, including eight outings as former Russian assassin Black Widow thwarting alien incursions in *The Avengers* and other films in the Marvel Universe. This book surveys Johansson's life and films from childhood to her 2019 Academy Award nominations for *Jojo Rabbit* and *Marriage Story*. Each film entry includes a plot synopsis, extracts from contemporary reviews, behind-the-scenes information, and the author's analysis of the film. Looked at in-depth are the three Woody Allen collaborations, her role as Black Widow, and the films in which she becomes "the other."

Alien in the Mirror Mar 14 2022 Directed by Jonathan Glazer (*Sexy Beast*, *Birth*) and starring Scarlett Johansson, the 2013 film *Under the Skin* contains elements of science fiction and fantasy, horror, mystery, and thriller. Arguably the most compelling of Johansson's career, the movie follows a unique tale of one woman's journey to self-discovery. This is the first book to be written about the quiet masterpiece, revisiting the film scene-by-scene through all its cinematic elements. Extensive interviews detail the challenges the filmmakers faced--from hidden filming on the streets of Glasgow to defying a blizzard in the Scottish Highlands. Readers are invited to explore connections between the movie and its science fiction cousins and discover the reasons

why *Under the Skin* deserves to find a wider audience.
