Keeper Of Genesis Feb 22 2023 In Keeper of Genesis, Robert Bauval and Graham Hancock present a tour de force of historical and scientific detective work and answer the following questions: When and where did history begin? When was the genesis of civilisation in Egypt? How and why were the Great Sphinx and the three pyramids of Giza designed to serve as parts of an immense three-dimensional model of the sky of 'First Time'? What is contained in the rectangular chamber that seismic surveys have located in the bedrock far below the paws of the sphinx? What lies behind the mysterious doors recently discovered at the end of a previously unexplored shaft inside the Great Pyramid? And does mankind have a rendezvous with destiny - a rendezvous not in the future, but in the distant past - at a precise place and time? Using sophisticated computer simulations of the ancient skies to crack the millennial code that the monuments transcribe, Bauval and Hancock set out a startling new theory concerning the Pyramid Texts and other archaic Egyptian scriptures.

The Covenant of Genesis Apr 19 2020 AN INCREDIBLE DISCOVERY. A MERCILESS FOE. A DEADLY RACE FOR THE TRUTH. Off a remote stretch of the Indonesian coast, archaeologist Nina Wilde has made an astounding discovery: an artifact that will rewrite everything that's known about human history. But before she can return to tell the world of her find, her ship is brutally attacked, her crew is ruthlessly murdered, and the artifact is stolen. Someone wants this secret to stay hidden—and will do anything to keep it that way. From the depths of the ocean to the Australian outback to the halls of the United Nations, Nina and her fiancé, ex-SAS bodyguard Eddie Chase, embark on a quest to stop the all-powerful Covenant of Genesis, a clandestine group sworn to keep Nina's discovery a secret. Nina and Eddie have faced tough adversaries before, but the relentless Covenant is always two steps ahead of them—and more than willing to kill again. Who will be the first to expose the truth—and claim the most valuable archaeological prize of all time? Enter The Covenant of Genesis And discover an action-packed thrill ride that will keep you reading long into the night!

The Genesis Quest Oct 18 2022 Alien scientists create a new human race—and keep them as sheltered pets: "It's time to discover Donald Moffitt" (Greg Bear). After intercepting a message from Earth, Nar scientists have learned the secret of human life. The alien species understands everything about human technology and culture and uses this knowledge to build on each breakthrough until it succeeds in re-creating humans. Now they encourage their "pets" to evolve within the alien community and learn the mysteries of the galaxy, but prohibit any knowledge of the planet Earth itself. Bram has always dreamed of traveling to the forbidden planet. Although Earth is millions of miles away, the bioengineer is determined to discover the truth about his species and the land that has been kept a secret his whole life. Bram must discover a way to unveil the truth and see the homeland he has been denied.

Quest for Genesis Sep 17 2022 How much power do we have over our own destiny? This question has intrigued humanity throughout history and many believe that they have total free will, while others tend to play the role of victim. The truth lies somewhere in between. Journey with Zakeera, Blue-Star Commander, as he travels to the inner earth in search of the Genesis machine, a device installed by the Founders who originally prepared the Earth for habitation. In legends of old it is said that the one who controls Genesis will possess the power to control the universe. Join Zakeera in his quest as he confronts his darker side and discovers the power inherent within each one of us-plus the choices we have in using this power to change our world.

Beyond Genesis Aug 16 2022 A modern and noble UFO religion. A futuristic scientific discovery to save dying planets. An unthinkable story of our genesis. Professor Rudhran, renowned scientist and founder of a UFO religion called Kalki, is on a quest to find the crown jewel with the intention of saving our planet for our species to live in harmony. Abhimanyu, Rudhran's son, owner of a huge conglomerate and a very influential person, is on a quest to find the crown jewel with the intention of saving our planet from our species so that all other species and the planet itself can live in harmony. He kills his own father to get ahead in the race. With the clue that Rudhran left, Krish, Iksha and others join in search of the crown jewel in a frantic hunt through ancient Indian temples. After a breath-taking adventure and solving the mysterious riddles, when they find the crown jewel, they are in shock to see that what they were searching for was not something that they expected. Can the crown jewel be used to save our planet? Abhimanyu or Rudhran, who's vision will become true? What will be the future of our species and this planet? Along with all these questions, answers for our genesis and purposes on this planet are unveiled with the help of the crown jewel.

Genesis Quest Aug 24 2020 Are the stories in Genesis fact, myth, legend, the word of God, philosophy, or something else? Through time, what people think or remember about Genesis has become a mixture of fact and fable. For example, if you were to ask someone what fruit Adam and Eve were tempted by, most people might say, "An apple." If you were to ask what color the apple was, most people might state that they think the fruit was red. Are these actual facts? No, people are simply using artistic imagination. The stories in Genesis are multifaceted oral traditions about the human family that originated long before the established interpretations, dogmas, and doctrines of our contemporary world. One thing the stories do indicate is that we are all genetically connected regardless of our outward appearance, yet we are divided due to multiple factors related to our situation in life and personal beliefs. The Genesis Quest examines ancient roots of human thinking to strip away veneers of progressive interpretations and reveal the evolution of a philosophy — six principles of the human spirit looking for the soul of our communal life: God/creation, good and evil, sharing, mercy, saving life, and communicating, These principles are intended to help us understand what it means to be human.

The Genesis Machine Dec 08 2021 The next frontier in technology is inside our own bodies. Synthetic biology will revolutionize how we define family, how we identify disease and treat aging, where we make our homes, and how we nourish ourselves. This fast-growing field—which uses computers to modify or rewrite genetic code—has created revolutionary, groundbreaking solutions such as the mRNA COVID vaccines, IVF, and lab-grown hamburger that tastes like the real thing. It gives us options to deal with existential threats: climate change, food insecurity, and access to fuel. But there are significant risks. Who should decide how to engineer living organisms? Whether engineered organisms should be planted, farmed, and released into the wild? Should there be limits to human enhancements? What cyber-biological risks are looming? Could a future biological war, using engineered organisms, cause a mass extinction event? Amy Webb and Andrew Hessel's riveting examination of synthetic biology and the bioeconomy provide the background for thinking through the upcoming risks and moral dilemmas posed by redesigning life, as well as the vast opportunities waiting for us on the horizon.

Een kleine geschiedenis van iedereen die ooit heeft geleefd Sep 24 2020 Een kleine geschiedenis van iedereen die ooit heeft geleefd van Adam Rutherford is een adembenemende ontdekkingsreis door de menselijke geschiedenis, voor iedereen die Harari's Sapiens heeft gelezen. In onze unieke genomen dragen we allemaal de geschiedenis van onze soort - geboorte, dood, ziekte, oorlog, hongersnood, migratie en héél veel seks. Maar die verhalen zijn altijd verborgen gebleven - tot nu. Wie waren onze voorouders? Waar kwamen ze vandaan? Genetici zijn plotseling historici geworden en het harde bewijs in ons DNA heeft alles we dachten te weten over de afgelopen 100.000 jaar in een ander daglicht gesteld. De bejubelde wetenschapper en schrijver Adam Rutherford zal je anders doen denken over neanderthalers, evolutie, royalty, ras en zelfs roodharigen.

Second Genesis Jun 21 2020 Many centuries ago, an alien race known as the Nar were able to recreate human beings from genetic code, broadcast from Earth into outer space by a beleaguered humanity. Although the Nar are kind and benevolent masters to the humans, discontent leads the humans to revolt, and the Nar realize that they do not yet fully understand their rebellious creations. They allow a group of humans to travel millions of light years through the galaxy, in order to discover what has happened to the original occupants of planet Earth. However, none of the human participants of the expedition are prepared for what awaits them at the completion of their journey...

The Quest for the Historical Adam Jul 15 2022 Was Adam really a historical person, and can we trust the biblical story of human origins? Or is the story of Eden simply a metaphor, leaving scientists the job to correctly reconstruct the truth of how humanity began? Although the church currently faces these pressing questions--exacerbated as they are by scientific and philosophical developments of our age--we must not think that they are completely new. In *The Quest for the Historical Adam*, William VanDoodewaard recovers and assesses the teaching of those who have gone before us, providing a historical survey of Genesis commentary on human origins from the patristic era to the present. Reacquainting the reader with a long line of theologians, exegetes, and thinkers, VanDoodewaard traces the roots, development, and, at times, disappearance of hermeneutical approaches and exegetical insights relevant to discussions on human origins. This survey not only informs us of how we came to this point in the conversation but also equips us to recognize the significance of the various alternatives on human origins. It also includes a foreword written by Dr. R. Albert Mohler, Jr. Table of Contents: 1. Finding Adam and His Origin in Scripture 2. The Patristic and Medieval Quest for Adam 3. Adam in the Reformation and Post-Reformation Eras 4. Adam in the Enlightenment Era 5. Adam in the Nineteenth and Early Twentieth Centuries 6. The Quest for Adam: From the 1950s to the Present 7. What Difference Does It Make? Epilogue: Literal Genesis and Science?

The Genesis Quest Jan 21 2023 "Some have argued that life began in the chemical-rich seas of the early Earth, the famous primordial soup, while others are convinced that life began in strange vents pumping hot water out of the sea floor, where the chemical reactions that sustain living cells could get started. Or perhaps life began in volcanic ponds on land, or in meteorite impact zones, or even in beds of clay. Each idea has attracted staunch believers who promote it with an almost religious fervor. But the story of life's origins is more than this: it is a story that takes in some of the greatest discoveries in modern biology, from cells to DNA, and evolution to life's family tree. This book is the first full history of the scientists who struggled to explain one of the greatest mysteries of all: how and why life began"--

Analysis of Genesis Dec 16 2019 I like to apply the same analytical skills that helped me succeed in IT to my study of the Bible. I use the same technique when preparing a lesson, a sermon, or just discussing God's word with friends. It was while discussing God's word with friends that the issue of the apparent contradictions in God's word became so critical to me. It seems because of these contradictions and misinformation, the conversations kept getting sidetracked into meaningless discussions and not on the real message. God's word says in Numbers 23:19, "God is not a man that he should lie," and at least one side of a contradiction is wrong, or a lie. This started me on a quest to resolve the contradictions. The results of that quest are found in this book.

Jurassic World Apr 12 2022 Michael Crichton is schrijver van de wereldwijde blockbusters Jurassic Park, The Lost World, Airframe, Disclosure, Tijdlijn, Dodelijke afdaling en Zero Cool. Hij schreef ook de tv-serie ER. Van Crichtons boeken zijn dertien films gemaakt en ze zijn in zesendertig talen vertaald. Crichton overleed in 2008. Michael Crichtons Jurassic World (Jurassic Park en The Lost World) is een absoluut hoogtepunt in de moderne popcultuur. Er is een verbijsterende techniek uitgevonden om DNA van dinosauriërs te klonen en deze wezens weer tot leven te wekken. Nu zijn de wildste fantasieën van de mens werkelijkheid geworden:

dieren die al eeuwen uitgestorven waren, dwalen nu weer rond in Jurassic Park, en iedereen kan ze komen bekijken - tegen een prijs. Totdat er iets misgaat...

Ephemeral Genesis May 21 2020

Secret Chamber Revisited Jan 17 2020 A firsthand, behind-the-scene account of the controversies surrounding modern explorations at Giza • Investigates the recent scandals at Giza and claims of secret excavations and tunneling inside the Great Pyramid • Reveals the historical evidence in support of secret chambers in the Great Pyramid and beneath the Great Sphinx • Exposes the secret agendas behind the latest explorations on the Giza plateau Since 1993 Robert Bauval has been embroiled in the many controversies involving the search for the lost treasures of the pyramid builders and the quest for the legendary Hall of Records of Atlantis. The strange but true story that he unfolds implicates American business moguls, the prestigious National Geographic Society, several Ivy League universities, the Edgar Cayce Foundation, the Freemasons, Christian fundamentalists, Zionists, and the Egyptian government. In this fully updated edition of Secret Chamber, including new color photographs, Robert Bauval pursues his in-depth investigation of clandestine events at Giza and the role played by the controversial ex-Minister of Antiquities Dr. Zahi Hawass. What lies behind the mysterious doors at the end of the star shafts in the Great Pyramid? What do the mysterious inscriptions found behind the Gantenbrink door mean? What is the real purpose of the Relief Chambers and the red ochre "graffiti" in them? Who is behind the secretly tunneling and excavating in these chambers, and why? Is there really a hidden Hall of Records from Atlantis beneath the Great Sphinx? Is the Great Pyramid just a tomb or does it serve a higher purpose involving a lost science of immortality? Why do the ancient texts ascribe the Pyramid's design to the supreme god of wisdom Thoth, the writer of the fabled Books of Hermes? Will the Great Pyramid prove to be the "missing link" to our true origins or a "metaphysical machine" to access the world beyond? Providing a firsthand account of the strange events that have taken place at the Giza plateau in the last three decades, Bauval reveals the hidden agendas behind these events and raises important questions about the meaning of Egypt's ancient structures and the very origins of civilization.

We hebben geen idee?! Dec 28 2020 Wat we nog niet weten van het universum In We hebben geen idee?! behandelen Whiteson en Cham op humoristische wijze alle grote wetenschappelijke vragen waarvan je zou verwachten dat we ze nu onderhand wel beantwoord hebben, maar waar we eigenlijk niets vanaf weten. Ze leggen uit wat de grootste 'unknowns' in het universum zijn, waarom deze zaken nog steeds een raadsel zijn en wat er op dit moment aan wordt gedaan om ze op te lossen. Denk hierbij aan vragen als: Waar bestaat 95% van het universum uit? Wat is tijd? Waarom heeft tijd slechts één richting? Aan het einde van het boek wordt duidelijk hoe bijzonder het is dat de mens überhaupt enig idee heeft hoe het universum werkt. Het belangrijkste punt is echter dat je niet depressief moet worden van wat we niet weten, maar dat je enthousiast moet worden van waar we in de toekomst nog achter kunnen komen. Bovendien heeft alles een positieve kant: na het lezen van dit boek weet je tenminste waaróm we geen idee hebben.
