Children will revel in the exciting and colorful activities in this series. The 50 step-by-step projects in each book provide creative fun for both indoors and out. Contains 15 fantastic, easy-to-make pirate-themed projects suitable for boys and girls. This reference is the first comprehensive how-to collection of Six Sigma tools, methodologies, and best practices. Leading implementer Lynne Hambleton covers the entire Six Sigma toolset, including more than 70 different tools—ranging from rigorous statistical and quantitative tools, to “softer” techniques. The toolset is organized in an easy-to-use, alphabetical encyclopedia and helps professionals quickly select the right tool, at the right time for every business challenge. Hambleton systematically discusses which questions each tool is designed to answer; how the tool compares with similar tools; when to use it; how to use it step-by-step; how to analyze and apply the output; and which other tool to use with it. To further illustrate and clarify tool usage, she presents hundreds of figures, along with never-before-published hints, tips, and real-world, “out-of-the-box” examples. Coverage includes · Real-world guidance to help practitioners raise the most important questions and determine the best resolution · Statistical techniques, including ANOVA, multi-vari charts, Monte Carlo simulations, normal probability plots, and regression analysis · Benchmarks, capability and cost/benefit analyses, Porter’s Five Forces, scorecards, stakeholder analysis, and brainstorming techniques · CPM, CTQ, FMEA, HOQ, and GOSPA · GANTT, PERT chart, and other Six Sigma project management tools · 7QC: cause and effect diagrams, checklists, control charts, fishbone diagram, flowchart, histogram, Pareto chart, process maps, run chart, scatter diagram, and the stratification tool · 7M: AND, affinity diagrams, interrelationship diagrams, matrix diagrams, prioritization matrices, PDPC, and tree diagrams · Crystal Ball, Minitab, and Quality Companion 2 software to facilitate the use of statistical and analytical tools and more to help you become a more effective Six Sigma practitioner · This book is also available in a highly-searchable eBook format at [www.prenhallprofessional.com/title/0136007376](http://www.prenhallprofessional.com/title/0136007376) and other online booksellers. From start to finish, this book delivers fast, thorough and reliable answers—knowledge you’ll rely on in every Six Sigma project, for years to come. Offering an updated overview of the latest version of the popular spreadsheet program, an informative manual covers the entire gamut of how to build spreadsheets, add and format information, print reports, create charts and graphics, and use basic formulas and functions, and includes helpful tips and step-by-step instruction in using the new user interface and

tabbed toolbar. Original. (All Users) Celebrated indie artist Christine Schmidt offers 25 hip, imaginative, and personalizable decorations, toys, puzzles, and keepsakes for children using simple hand-printing techniques. A new take on DIY projects for kids. Personalized, handmade items are a meaningful way to show your love for a baby or child. Christine Schmidt, author of the bestselling *Print Workshop* and the creative force behind the acclaimed Yellow Owl Workshop line of artisan stationery and home accessories, shares her inspired ideas for making easy, yet entirely unique items for children from newborns to school-aged. Using stamps, stenciling, and other hand-printing techniques, design-savvy parents will be able to make quick kid-friendly projects that will be cherished for years to come. Discover new possibilities for your fabric stash with this guide featuring 11 easy scrap quilts using ingenious, no-waste cutting techniques! Quilter Judy Gauthier is a master of turning fabric scraps into fabulous quilts. In this practical guide, she shares her secrets for conquering that mountain of odds and ends. Learn how to piece gorgeous scrap quilts from fabric prints you never thought would go together—even remnants in odd shapes and sizes. Judy's easy-to-use templates and color theory tips will have you cutting up your scrap surplus and making magic in no time. With these fun and inspiring projects, playing with scraps may become your all-time favorite sport. You're beyond the basics, so dive in and really put your spreadsheet skills to work! This supremely organized reference is packed with hundreds of timesaving solutions, troubleshooting tips, and workarounds. It's all muscle and no fluff. Discover how the experts tackle Excel 2010—and challenge yourself to new levels of mastery! Learn expert techniques for designing powerful spreadsheets Apply built-in functions-or write your own-and carry out complex calculations Use rich charting and graphic capabilities to visualize data Perform sophisticated data analysis: financial, statistical, and "what-if" Design PivotTable reports to dynamically analyze data Share and collaborate with others-while managing sensitive data Link and embed Excel data into other documents Create macros with Microsoft Visual Basic for Applications Sample spreadsheets from inside the book Add-ins and other resources to help you extend Microsoft Office programs Links to demos, user communities, and product support Includes CD-Rom In this new book, Pam Allen provides a valuable resource designed to help develop preventative approaches for learning mentors to work and deal effectively with the emotional needs of vulnerable young people. The resources included will help young people: o build their capacity to set realistic targets o build a positive view of their strengths and abilities o improve skills in communication and problem solving o build their capacity to manage strong feelings. There are comprehensive facilitator notes, activities and materials to provide a general course on mental health and wellbeing, as well as sections on working with vulnerable young people, teenage girls and white working class boys. This accessible book will help ensure that children and young people can learn ways to feel safe and valued and to have a sense of self-efficacy. How can carers and relatives support a person's identity, relationships and emotional wellbeing through changes that occur in the later stages of dementia? Drawing on over ten years' experience of working with people with dementia, Karrie Marshall provides a toolkit of tried and tested creative activities to support communication and relationships. Activities are vast and varied, with outdoor activities such as bird-watching and star-gazing aimed at supporting physical health, artistic activities such as collage creation to support identity, and musical activities such as sounds and voice warm-ups to support self-expression. Marshall also sensitively covers end of life care for people with dementia, explaining how emotional support can be provided through gentle breathing activities and even puppetry, as well as covering the legal importance of power of attorney. This Treasure Box book is packed full of valuable resources from bestselling and award-winning author, trainer, organizational consultant, and Clinical Psychologist Dr. Karen Treisman, and will show you how to weave a deep understanding of trauma and adversity into the daily practice and the whole fabric of your organization. This expert knowledge is presented in a bright and easy to understand way. Every chapter contains a huge array of colour photocopiable worksheets, downloadable materials, practical ideas, reflective questions, and exercises ready to use both individually and organizationally. Covering guidance on policies, recruitment, supervision, language, cultural humility, co-production, team meeting ideas, staff wellbeing and more, this is the

ultimate treasure trove for getting your organization truly and meaningfully trauma-informed. There are also contributors from all over the world within different contexts, from prisons to social care to schools to residential homes and much more, which illustrate how to take the ideas and apply them into real world practice. Even though Gilly the Giraffe has many wonderful things in her life, she sometimes lacks confidence. Why does she have to stand out so much with her long neck, her long black tongue and her mosaic patches? Why do some of the other animals point and laugh at her? Can it be possible to be different and to be cool? This activity book developed by expert child psychologist Dr Karen Treisman combines a colourfully illustrated therapeutic story about Gilly the Giraffe to help start conversations, which is followed by a wealth of creative activities for children to explore and build upon some of the ideas raised in the story, and beyond! The activities are accompanied by extensive advice and practical strategies for parents, carers and professionals on how to help children aged 5-10 boost their self-esteem and confidence. Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. Focusing on the socialization of the human use of other animals as resources in contemporary Western society, this book explores the cultural reproduction of human-nonhuman animal relations in childhood. With close attention to the dominant practices through which children encounter animals and mainstream representations of animals in children's culture - whether in terms of the selective exposure of children to animals as 'pets' or as food in the home or in school, or the representation of animals in mass media and social media - *Our Children and Other Animals* reveals the interconnectedness of studies of childhood, culture and human-animal relations. *Bringing German to Life* provides an innovative and refreshing cross-curricular approach to teaching languages in primary schools, combining art, design and foreign languages with various aspects of the National Primary Curriculum such as Literacy, Numeracy and PE. This unique practical resource comprises an engaging storyline about a day in the life of two German children and gives an opportunity for learners to re-enact their day, using finger puppets, handmade crafts and exciting games to practise new language. Each of the 14 sections begins with a short accessible dialogue in German and is followed by suggestions for using the new vocabulary in pairs, small groups or as a whole class. The main story is accompanied by fun craft activities linked to the story (one for each section, ie 14 in total) for children to create in class using the templates and instructions provided. A wide range of further activities follows, consisting of lively games, songs and opportunities to communicate simple ideas. Language extensions are suggested, focussing on imaginative writing and reading ideas linked to the theme of each section. Written to support the new foreign languages programme of study, the book also includes: \* Cross-curricular links to numerous subjects including Literacy, Numeracy, PE and ICT \* Classroom games and activities \* Photocopiable resources and templates for fun classroom activities and projects \* Language extension activities. *Bringing German to Life* can be read on three levels to suit a variety of classroom situations. First, the story can be told 'straight' with the whole class participating in the dialogues. Second, the story can be combined with the craft activities after each main section. 14 doing and making activities match the storyline and provide a colourful, eye-catching display and learning focus in the classroom or for Open Days or Assemblies. Teachers can use as many or as few as they wish. The resultant crafts can be used for very effective classroom displays/open days/assemblies etc. Finally, the language extension activities can be used alongside the art/craft/design activities as desired. The aim of these activities is to extend the target language in a relevant context through a variety of methods such as songs, playlets, simple communicative exchanges, games with numbers etc. Whether you are an Excel neophyte, a sophisticate who knows the program inside out, or an intermediate-level plodder eager to hone your skills, *Excel: The Missing Manual* is sure to become your go-to resource for all things Excel. Covering all the features of Excel 2002 and 2003, the most recent versions for Windows, *Excel: The Missing Manual* is an easy-to-read, thorough and downright enjoyable guide to one of the world's most popular, (and annoyingly complicated!) computer programs. Never a candidate for "the

most user-friendly of Microsoft programs," Excel demands study, practice and dedication to gain even a working knowledge of the basics. Excel 2003 is probably even tougher to use than any previous version of Excel. However, despite its fairly steep learning curve, this marvelously rich program enables users of every stripe to turn data into information using tools to analyze, communicate, and share knowledge. Excel can help you to collaborate effectively, and protect and control access to your work. Power users can take advantage of industry-standard Extensible Markup Language (XML) data to connect to business processes. To unleash the power of the program and mine the full potential of their database talents, users need an authoritative and friendly resource. None is more authoritative or friendlier than Excel: The Missing Manual. Not only does the book provide exhaustive coverage of the basics, it provides numerous tips and tricks, as well as advanced data analysis, programming and Web interface knowledge that pros can adopt for their latest project. Neophytes will find everything they need to create professional spreadsheets and become confident users. Excel: The Missing Manual covers: worksheet basics, formulas and functions, organizing worksheets, charts and graphics, advanced data analysis, sharing data with the rest of the world, and programming. If you buy just one book about using Excel, this has GOT to be it. This book has all you need to help you excel at Excel. Bringing French to Life provides an innovative and refreshing cross-curricular approach to teaching languages in primary schools, combining art, design and foreign languages with various aspects of the National Primary Curriculum such as Literacy, Numeracy and PE. This unique practical resource comprises an engaging storyline about a day in the life of two French children and gives an opportunity for learners to re-enact their day, using finger puppets, handmade crafts and exciting games to practise new language. Each of the 14 sections begins with a short accessible dialogue in French and is followed by suggestions for using the new vocabulary in pairs, small groups or as a whole class. The main story is accompanied by fun craft activities linked to the story (one for each section, ie 14 in total) for children to create in class using the templates and instructions provided. A wide range of further activities follows, consisting of lively games, songs and opportunities to communicate simple ideas. Language extensions are suggested, focussing on imaginative writing and reading ideas linked to the theme of each section. Written to support the new foreign languages programme of study the book also includes: \* Cross-curricular links to numerous subjects including Literacy, Numeracy, PE and ICT \* Classroom games and activities \* Photocopiable resources and templates for fun classroom activities and projects \* Language extension activities. Bringing French to Life can be read on three levels to suit a variety of classroom situations. First, the story can be told 'straight' with the whole class participating in the dialogues. Second, the story can be combined with the craft activities after each main section. 14 doing and making activities match the storyline and provide a colourful, eye catching display and learning focus in the classroom or for Open Days or Assemblies. Teachers can use as many or as few as they wish. The resultant crafts can be used for very effective classroom displays/open days/assemblies etc. Finally, the language extension activities can be used alongside the art/craft/design activities as desired. The aim of these activities is to extend the target language in a relevant context through a variety of methods such as songs, playlets, simple communicative exchanges, games with numbers etc. From America's largest specialty retailer of arts and crafts merchandise comes an extraordinarily big, beautiful, and encyclopedic collection of techniques and 175 projects--from beading and woodworking to glass and fabric crafts. This book provides an integrated view of the five kinds of enabling technologies in terms of knowledge media architectures: multimedia and hypermedia, object-oriented GUI and visual programming, reusable component software and component integration, network publishing and electronic commerce, and object-oriented and multimedia databases. Among many books on multimedia and hypermedia, few address knowledge. Of those that do, none focus on media for the editing, distribution, and management of knowledge the way this book does. It is written based on the hypothesis that knowledge media work as genes, with their network publishing repository, working as a gene pool to accelerate the evolution of knowledge shared in our societies. Party Fun! guides you through every stage of holding a children's party, from choosing on a theme and making the invitations to creating

the food, decorating the venue, and planning the entertainment. Divided into 20 party ideas, suitable for a range of ages. Themes include Baby's 1st Birthday, Plundering Pirates, Hearty Party, Teddy's Picnic, Skateboard Extreme, Funky Fashion Sleepover, Tenpin Bowling, Witches and Wizards, Boys' Night Out, Dolly's Tea Party, Toyland Express, Bling Bling Beads, Wintry Wishes, Chocolate Factory, Mesmerizing Mermaids, Back to School, Upside Down Back to Front, Wrestling Fever, Career Capers, and Ballet. Recipes, templates and stockist information is included. Storybook characters and situations are perfect for launching discussions of social emotional learning—why not let them help? In picture books, well-loved characters deal with many of the same problems students face in their own lives. What better resource could there be for encouraging students to think about their actions and responses? Using classroom texts to start SEL conversations— during an interactive read- aloud or an extension of shared close- reading lessons— weaves social emotional learning organically into the fabric of an existing curriculum rather than adding a new block to the day. In a book perfect for a study group or for immediate use in the classroom, literacy educator Nancy Boyles connects the dots between the competencies identified by leaders in the SEL field with the rich content of children's literature. More than 200 award- winning picture books are profiled along the way as she unpacks each SEL skill, sketches typical classroom situations in which teachers might not see that skill demonstrated, discusses what to look for in books that address it, and provides carefully crafted sets of questions to explore with students. Includes information on self-management, decision-making, communication, goal-setting, self-reflection, cooperation. An 8-week program designed for children aged preschool through third grade. Bringing Spanish to Life provides an innovative and refreshing cross-curricular approach to teaching languages in primary schools, combining art, design and foreign languages with various aspects of the National Primary Curriculum such as Literacy, Numeracy and PE. This unique practical resource comprises an engaging storyline about a day in the life of two Spanish children and gives an opportunity for learners to re-enact their day, using finger puppets, handmade crafts and exciting games to practise new language. Each of the 14 sections begins with a short accessible dialogue in Spanish and is followed by suggestions for using the new vocabulary in pairs, small groups or as a whole class. The main story is accompanied by fun craft activities linked to the story (one for each section, ie 14 in total) for children to create in class using the templates and instructions provided. A wide range of further activities follows, consisting of lively games, songs and opportunities to communicate simple ideas. Language extensions are suggested, focussing on imaginative writing and reading ideas linked to the theme of each section. Written to support the new foreign languages programme of study, the book also includes: \* Cross-curricular links to numerous subjects including Literacy, Numeracy, PE and ICT \* Classroom games and activities \* Photocopiable resources and templates for fun classroom activities and projects \* Language extension activities. Bringing Spanish to Life can be read on three levels to suit a variety of classroom situations. First, the story can be told 'straight' with the whole class participating in the dialogues. Second, the story can be combined with the craft activities after each main section. 14 doing and making activities match the storyline and provide a colourful, eye catching display and learning focus in the classroom or for Open Days or Assemblies. Teachers can use as many or as few as they wish. The resultant crafts can be used for very effective classroom displays/open days/assemblies etc. Finally, the language extension activities can be used alongside the art/craft/design activities as desired. The aim of these activities is to extend the target language in a relevant context through a variety of methods such as songs, playlets, simple communicative exchanges, games with numbers etc. Stack your fabric stash on your worktable -- it's time to create scrap quilts! Turn fabric stashes into unique scrap quilts with Judy Gauthier's quilt-as-you-go method (QAYG). You will find yourself using scraps that you never thought you would use again while discovering several QAYG techniques and projects. The ultimate DIY technique, quilt-as-you-go means you control the whole process from the first stitch to the last. If you're someone who has several WIPs (works in progress), or you need time-saving quilting hacks, this book of fast and easy QAYG is for you. The Be the Jellyfish programme uses creativity, relaxation, and communication to support social and emotional wellbeing in children. With

structured lesson plans for groups of varying sizes, this manual offers training and activities in massage, bodywork, breathing exercises, and creative expression. In this project-based sewing book, Amy Butler teaches what she does best: sewing, quilting, and pattern making. From lampshades to pillows, quilts to statement jewelry, *Piece Keeping* is the perfect go-to for the crafty. With clear sections on traditional sewing themes, tools, and methods, this book will appeal to Amy's core fans as well as those simply drawn to beautiful fabrics and DIY projects. The 20 inspiring projects include dozens of how-to diagrams, plus 9 downloadable patterns. *Piece Keeping* is both a practical guide and a source for stylish home décor and fashion inspiration, brimming throughout with Amy's unique color sense and eye-catching textile designs. *Bringing Spanish to Life* provides an innovative and refreshing cross-curricular approach to teaching languages in primary schools, combining art, design and foreign languages with various aspects of the National Primary Curriculum such as Literacy, Numeracy and PE. This unique practical resource comprises an engaging storyline about a day in the life of two Spanish children and gives an opportunity for learners to re-enact their day, using finger puppets, handmade crafts and exciting games to practise new language. Each of the 14 sections begins with a short accessible dialogue in Spanish and is followed by suggestions for using the new vocabulary in pairs, small groups or as a whole class. The main story is accompanied by fun craft activities linked to the story (one for each section, ie 14 in total) for children to create in class using the templates and instructions provided. A wide range of further activities follows, consisting of lively games, songs and opportunities to communicate simple ideas. Language extensions are suggested, focussing on imaginative writing and reading ideas linked to the theme of each section. The aim of these activities is to extend the target language in a relevant context through a variety of methods such as songs, playlets, simple communicative exchanges, games with numbers etc. Contains 50 projects for making games and crafts. The first book available on this fast-growing and highly regarded software package MindManager allows users to visually map their ideas and brainstorming sessions in order to better organize thoughts and put them into action. Exploring all there is to know about the MindManager product, including the Standard, Business, Enterprise, and handheld releases, this book walks readers through the process and techniques in using MindManager to communicate ideas. Hugh Cameron (Indianapolis, IN) heads Camtech, Inc., a clinical engineering company that extends its reach to incorporate a diverse group of projects. Roger Voight, PhD, is a certified project manager with more than 30 years of experience in software design, development, and software project management. Youth Emmaus is a course designed to help those aged 11 to 16 explore the basics of the Christian faith. This is no easy task - but Youth Emmaus offers a winning combination of meaty leaders' notes, cool handouts for group members, great cartoons and graphics and a free CD-ROM stacked with other useful resources. The material is fully road-tested and ideal for youth groups and as a confirmation course for young people. Youth Emmaus tackles: What Christians Believe (5 Units) How Christians Grow (5 Units) Living the Christian Life (3 Units) Youth Emmaus also contains a FREE CD-ROM that includes: Handouts and supplementary handouts for all sessions as PDF files Emmaus Poster Downloadable services to use with young people and a section on using Youth Emmaus in an all-age context Powerpoint presentation on Youth Emmaus Useful links to Emmaus website All icons from handouts available in colour in a downloadable format Goes beyond traditional "job hunt strategies"

to provide innovative solutions targeted to specific populations This graduate text for courses in career counseling is distinguished by its emphasis on creative interventions tailored to the unique needs of diverse populations. With a focus on career as a cornerstone of personal identity, the book explores the specific meaning of careers within different cultures and examines the challenges faced by—and potential solutions for—individuals with diverse backgrounds and needs. It describes unique interventions that allow counseling students to visualize and actualize career counseling with a wide range of clients and demonstrates techniques targeted to each population that can be put into practice immediately. The text provides demographic information regarding specific job-seeking groups including such “traditional” populations as college graduates and working parents, as well as groups that encounter special challenges such as stay-at-home parents returning to work, formerly incarcerated individuals, people with disabilities, teen mothers, African American, Hispanic and Asian males and females, older adults, LGBT individuals, and many others. Over fifty creative, innovative interventions that have been successfully applied help counselors to provide effective career development strategies with each population. Chapters include a vignette representing each population, group demographics, a history of career paths and obstacles, unique needs of the group, supports already in place, and specific career counseling assessment and interventions. The book also provides abundant resources for additional study. In addition to its value to career counselors, the text will also be useful to personal counselors who often deal with their client’s career issues during treatment. Key Features: Provides in-depth exploration of underserved populations who hold unique career development needs Includes innovative career counseling interventions that move beyond standard “job hunt strategies” or “resume preparation tips” Explores life stage concerns related to career development across multiple diverse identities Gives readers step-by-step details on implementing over 40 innovative career counseling techniques Presents case studies that provide clear examples of the application of relevant interventions In *Acting It Out*, you’ll discover how to use drama in your ELA and social studies classrooms to boost student participation and foster critical thinking. With years of experience supervising arts integration programs in Chicago Public Schools, authors Juliet Hart, Mark Onuscheck, and Mary T. Christel offer practical advice for teachers in middle and high schools. Inside, you’ll find... Group activities to improve concentration, harness focus, and engage students of all abilities and learning styles in teamwork Close reading exercises that encourage students to think critically and build personal relationships with the text Strategies for integrating active approaches to dramatic literature, such as improvisation and scene work Ideas for using dramatic literature as a springboard for studying history and interdisciplinary studies Annotated reading lists that highlight each play’s content and recommended uses in ELA or social studies Throughout the book, you’ll also find handy tools such as reflection questions, handouts, and rubrics. By implementing the strategies in this book and allowing students to step into different roles from a text, you’ll improve reading comprehension and energize your classroom! This unique book/disk package is a collection of shareware programs that make WordPerfect simpler, faster and more powerful. Timesaving macros and utilities are already on the disk, and ready to install; the companion text explains everything. Super for point-of-purchase placement. *Creative Activities for the Early Years* contains over 160 art and music activities for use with children aged 0-5. These tried and tested activities, which include songs, rhymes, and story suggestions, are ideal for use in all early years settings. Whether your topic is the autumn, the Chinese New Year or the coastline, you can be sure that children will find the art and music ideas in this book interesting and entertaining. The activities encourage children to use their imagination to communicate ideas, and develop their gross and fine motor skills. The activities are grouped by popular early years themes and can be used as a complete programme or as a dip-in resource. Like a treasure chest, this resource overflows with valuable resources - information, ideas and techniques to inspire and support those working with children who have experienced relational and developmental trauma. Drawing on a range of therapeutic models including systemic, psychodynamic, trauma, sensory, neurobiological, neurocognitive, attachment, cognitive behavioural, and creative ideas, Dr Karen Treisman explains how we understand trauma and its impact on children, teens and their families.

She details how it can be seen in symptoms such as nightmares, sleeping difficulties, emotional dysregulation, rage, and outbursts. Theory and strategies are accompanied by a treasure trove of practical, creative, and ready-to-use resources including over 100 illustrated worksheets and handouts, top tips, recommended sample questions, and photographed examples. Explores the legacy of a Civil War-era secret society, the Knights of the Golden Circle, and describes efforts to crack the society's system of codes and symbols to identify hidden treasure sites across the American south and west. This text provides an extensive range of lesson plans and approaches common to RE topics and can easily be intergrated within an existing scheme of work and be used alongside other teaching material. It was written by practising teachers, with a successful track record in delivering good RE in class. It is easily adaptable for mixed ability classrooms, wiht lots of hands-on activities, such as things to make, crosswords and games. It is suitable for both specialist and non-specialist teachers. Topic areas covered in volume 1 are: ultimate questions, authority and commitment. Topic areas for volume 2 are: identity, expression and experience. No matter whether you're a sewer or a general crafter, there's a baby gift here to suit your skills and thrill any new parents. Start with the section on selecting your present, and then study the guide to choosing materials, a sizing chart for babies up to a year old, an introduction to basic stitches, and tips on what's safe for an infant. Try an embellished cotton top, little booties, or an oilcloth bib. Wrap winter newborns in fleece bunting. Clothing, blankets, and other sewn articles feature modern, washable fabrics that will stand up to wear and tear. Stimulate baby's mind with smart toys, like soft blocks or a mobile, and ease teething pains with a felt rattle. Plus: gift presentation ideas, personalized cards, and interesting information on baby gifts and new baby traditions from around the world. \* 41 full colour craft projects for baby clothes, nursery ornaments and soft toys. \* Full guide to baby gift basics - what to make & what not to give.
