This book provides a focused and comprehensive overview of criminal psychology in different socio-economic and psycho-sociological contexts. It informs readers on the role of psychology in the various aspects of the criminal justice process, starting from the investigation of a crime to the rehabilitation or reintegration of the offender. Current research in criminology and psychology has been discussed to understand the minds of various offenders, how to interact with them during investigation and conviction effectively and how to bring about positive changes in various stages of the criminal justice process—investigation, prosecution, incarceration, rehabilitation—to increase the efficacy of the correctional system and improve public confidence in the justice system. The fifth edition of *Modern South Asia* draws on the newest historical research and scholarship in the field to interpret and debate key developments in modern South Asian history and historical writing, covering the diverse spectrum of the subcontinent's social, economic and political past. Jointly authored by two leading Indian and Pakistani historians, this definitive study offers a rare depth of historical understanding of the politics, cultures and economies that have shaped the lives of more than a fifth of humanity. This new edition on the 75th anniversary of independence and partition brings the narrative up to the present day, discussing recent events and addressing new themes such as the capture of state power in India by the forces of religious majoritarianism, economic development in the context of the 'rise' of Asia and strategic shifts occasioned by the US withdrawal from Afghanistan and China's increasing role in the region. Providing fresh insights into the structure and ideology of the British raj, the meaning of subaltern resistance, the refashioning of social relations along lines of caste, class, religion and gender, the different strands of anti-colonial nationalism and the dynamics of decolonization, this is an essential resource for all students of the modern history of South Asia in an Indian Ocean and global context. The Fifth edition has been thoroughly revised and updated keeping in view the new developments and appearance of new significant reference sources. Some new readings have also been added to bring further readings. This work not only describes the various aspects of reference service such as functions, methods, principles theories, practices, problems, but also provides an overview of available significant reference books, dictionaries, encyclopedias, yearbooks, bibliographies, union catalogues, almanacs, directories, etc. "Divine Intoxication" is a common theme in Middle Eastern poetry. The "wine" on which the seeker becomes "drunk" is nothing less than the nectar of love. Such "inebriation," however, often produces unconventional behavior, even hints of madness, marking the lover as one apparently lost to the ordinary world. In this mood, Kahlil Gibran wrote: "Only an idiot and a genius break man-made laws and they are the nearest to the heart of God." And so, the poetry written by or about these "drunkards" is often saturated with perennial wisdom, with stark reflections of the truth (in vino veritas), and with a variety of prayerful longing that is found throughout all mystical traditions. *Sweet Lunacy* contains works by some of the most well-known mystical Sufi poets from the 11th through the 14th century, including Rumi, Attar, and Jami. But the reader will also meet lesser-known authors here whose messages, both unique and fresh, are equally inspiring. The poets in this collection are those who, for reasons which might not seem altogether reasonable to our everyday mind and logic, were willing and able to question this mystery called life and, unwilling to accept readymade answers. Vraje Abramian, born in Iran and a native speaker of Farsi, has worked to keep his translations as close to the meaning and cultural flavor of the originals as possible. He has researched "Wise Fools" in various cultures/religions in the Near, and Middle East, Central Asia and India. While anecdotes, folk-tales and stories about spiritual ecstasies are abundantly present in Sufi literature particularly, no other single work focuses essentially on such profound lunacy and intoxication as this one does. Following the Introduction, the

book is divided into three parts: The Obstacle (Mind); The Battleground (Heart); and Deliverance (The Journey). Abramian has included poems and stories within each section that bring the reader's attention to these key distinctions in the mystical process. While the subject matter is rare and refined, the author is clear that every human being nurses within his or her heart a nostalgia, remote and nameless, a longing for something they cannot express. This fine collection is valuable not only for the refinement of poetic content but also for the spiritual guidance of the great mystics whose voices are made available herein. Sweet Lunacy is a must-have for lovers, seekers of truth, and connoisseurs of beauty alike. An easy-to-understand, well-illustrated introduction to the clinically-important aspects of microbiology! In December 1977 we published the first in this series of NGO-oriented reports on Asia's environment, *Ajia Kankyo Hakusho 1997/98*. This was published in English by Springer-Verlag as *The State of the Environment in Asia 1999/2000*. Although only a few years have passed since then, Asia has seen tumultuous changes in the political, economic, social, environmental, and other domains, as well as a number of prominent trends that could be regarded as harbingers of the new century. China, for instance, could henceforth decisively affect the evolution of environmental problems not only in Asia, but across the entire globe. Yet Chinese concern for and initiatives on pollution and environmental damage have increased more quickly than could have been anticipated just a few years ago. And on Taiwan, where a Democratic Progressive Party president was elected over the long-ruling Nationalist Party, an attorney who has cooperated with our pollution surveys for a decade, Hsieh Chang-ting, became mayor of Taiwan's largest heavy and chemical industry city of Kaohsiung, where he has begun a "Green Revolution." On the Korean Peninsula, which has for many years endured the division of its people, as well as political and military tensions, there are the beginnings of a new North-South dialog. These changes are all welcome to those of us who wish to see new advances in environmental cooperation throughout Asia. It re-examines terms and concepts used in film criticism and contextualizes them within the aesthetics, poetics and politics of Indian cinema. The book looks at terms and concepts borrowed from the scholarship on American and world cinema and explores their use and relevance in describing the characteristics and evolution of cinema in India. It highlights how realism, romance and melodrama in the context of India appear in a culturally singular way and how the aggregation of constituent elements – like songs, action, comedy – in Indian film can be traced to classical theatre and other diverse religious and philosophical influences. These influences have characterized popular film and drama in India which present all aspects of life for a diverse nation. The author explores concepts like ‘fantasy’, ‘family’ and ‘patriotism’ by using various examples from films in India and outside, as well as practices in the other arts. He identifies the fundamental logic behind the choices made by film-makers in India and discusses concepts which allow for a fresh theorizing on Indian cinema’s characteristics. This book will be of great interest to students and researchers of film studies, media studies, cultural studies, literature, cultural history and South Asian studies. It will also be useful for general readers who are interested in learning more about Indian cinema, its forms, origins and influences. Now available in paperback. In this volume, theoretical frames, modalities, and applications are examined for Interpersonal/Humanistic/Existential psychotherapy.
