This comprehensive instruction book relates specifically to businesses falling under the "arts and crafts umbrella"--from decorative art to needlecrafts to production and marketing of sideline products. Includes a collection of human interest stories about problem-solving and anecdotes about running a business. Illustrations. Do you love crafting? Are you a DIY guru? Then why not make it your business? Learn the ins and outs to starting a crafting business. With helpful tips and practical advice, becoming a young entrepreneur has never been easier! Many young people babysit, but with the

information in this title at their fingertips, babysitting can be brought to a whole new level of money making potential. Tips on marketing oneself and highlighting extra credentials, such as CPR certifications or having taken a babysitting course, are covered. Scheduling, arriving at a job prepared, and safety are also highlighted. In clear, easy-to-grasp language, the author covers many of the topics that you will need to know in order to launch and run a successful business venture. Consumer society in the United States and other countries is receding due to demographic ageing, rising income inequality, political paralysis, and resource scarcity. At the same time, steady jobs that compensate employees on a salaried or hourly basis are being replaced by freelancing and contingent work. The rise of the so-called sharing economy, the growth of do-it-yourself production, and the spreading popularity of economic localization are evidence that people are striving to find new ways to ensure livelihoods for themselves and their families in the face of profound change. Indications are that we are at the early stages of a transition away from a system of social organization predicated on consumerism. These developments have prompted some policy makers to suggest providing households with a non-labor source of income that would enable more adequate satisfaction of their basic needs. These proposals include a universal basic income, a citizen's dividend, and a legal framework for broad-based stock ownership in corporations. However, extreme political fractiousness makes it unlikely that these recommendations will receive prompt and widespread legislative endorsement

in most countries. In the meantime, we seem to be moving incontrovertibly toward a twenty-first century version of feudalism. How might we chart a different path founded on social inclusiveness and economic security? A practicable option entails establishment of networks of interlinked worker-consumer cooperatives that organizationally unify production and consumer. Such modes of mutual assistance already exist and *The Future of Consumer Society* profiles several successful examples from around the world. If replicated and scaled, worker-consumer cooperatives could smooth the transition beyond consumer society and facilitate a future premised on sufficiency, resiliency, and well-being. There's no such thing as a pre-set path to career success. Following the footsteps of others can only get you so far - and for women, there are often additional obstacles. But what if you could design your own path to your career goals? What if you could *Make Your Own Map*? Based on material from the popular *Women Transforming Leadership* course from Saïd Business School, University of Oxford, *Make Your Own Map* will help you develop a resilient and aspirational strategy for your career - whatever your starting point. Effective methods of strategic planning have been tried and tested in the corporate business world, and this book shows you how to repurpose those methods for yourself, even if you're not in the corporate world. Packed with strategic tools and practical exercises, this book will help you: -Assess and define your career goals -Make a plan -Implement your plan to find the work that fits your needs, your skills, and your direction. With your best career as the

goal, this book will help you forge your own path and Make Your Own Map. **The Handmade Business Revolution: Where & How to Sell Own Crafts Online** If you love doing crafts, you can easily turn your hobby into a profitable online business. (7 x 10, 264 pages, sample business plan, market survey for retail outlets, sample pricing equation, invoice, and statement, income/expenses worksheet, computer systems comparison) Roger King and Russell Queen died under mysterious circumstances during a bitter labor dispute between the labor union and the railroad company's scab workers. The King and Queen families each believed that their loved one had been murdered by the other. For that reason, the surviving Kings and Queens vowed to maintain the strike's de facto feud in their Railroad Street neighborhood. Both Ben Knight and wife Clara lost their health while Vince, the youngest of their ten children was still in diapers. As a consequence the frail sickly child was being raised by siblings. Vince's preteen years were spent in an isolated area of Eastern North Carolina. There, according to Ben, his youngest son had been spoiled, pampered and doted upon almost to the point of ruination. Increasing medical bills and the prospect of better paying jobs caused the family of Knights to move to a tough inner city neighborhood during the winter of 1940. Ben Knight believed that Railroad Street's toughness was exactly what his youngest son needed to shape him into a a real man. Ben rightly predicted that book worms and sissy pants would be

hard to find in a tough neighborhood like Railroad Street. That prediction turned out to be correct. To Ben Knight's horror, however, mothers from both sides of the "Royal Feud" fell in love with his son because he possessed those exact didactic characteristics. Historians claim that during World War II, America became more united than at any other time; before or since. It turned out that a mere mortal held a secret that could turn Railroad Street into an analogous part of America's most memorable era. However, only divine intervention was going to convince Ben Knight that his son had become the tenth star in his heavenly crown. Topics include startup, managing, and marketing of a homebased crafts business. Two authors with more than 20 years of combined experience share their practical experience serving teens in public libraries.
