Mister Monkey Sep 02 2021 “Tender and artful . . . a gently spiritual celebration of life.” —New York Times Book Review Acclaimed New York Times bestselling author Francine Prose weaves an ingenious, darkly humorous, and brilliantly observant story that follows the exploits and intrigue of a constellation of characters affiliated with an off-off-off-off Broadway children’s musical Mister Monkey—a screwball children’s musical about a playfully larcenous pet chimpanzee—is the kind of family favorite that survives far past its prime. Margot, who plays the chimp’s lawyer, knows the production is dreadful and bemoans the failure of her acting career. She’s settled into the drudgery of playing a humiliating part—until the day she receives a mysterious letter from an anonymous admirer . . . and later, in the middle of a performance, has a shocking encounter with Adam, the twelve-year-old who plays the title role. Francine Prose’s effervescent comedy is told from the viewpoints of wildly unreliable, seemingly disparate characters whose lives become deeply connected as the madcap narrative unfolds. There is Adam, whose looming adolescence informs his interpretation of his role; Edward, a young audience member who is candidly unimpressed with the play; Ray, the author of the novel on which the musical is based, who witnesses one of the most awkward first dates in literature; and even the eponymous Mister Monkey, the Monkey God himself. With her trademark wit and verve, Prose delves into humanity’s most profound mysteries: art, ambition, childhood, aging, and love. Startling and captivating, Mister Monkey is a breathtaking novel from a writer at the height of her craft.

Coco and Friends Oct 15 2022 "COCO And Friends, The story of a capuchin monkey and his adventures" is primarily based on actual events and primates who were rescued and now inhabit the newly developed and open to tourist (fall 2010), Monkey Jungle of Dominicanana, located in Sosua, Dominican Republic. Coco, being the first adopted capuchin monkey runs the show down in their grotto, so he believes. After his friends all start ganging up on him and ignoring him because he teases others, sticks his tongue out at everyone and steals things from the tourist because he believes he is a human primate and better than his friends, Coco decides he has no choice but to run away from home. The story chronicles his adventures as he seeks out to experience all of the things that he has heard the tourist talking about while visiting them in the jungle. Coco fly's a plane, then takes a few cars for a spin. Meanwhile, he stumbles upon a nice house with a great big swimming pool. He introduces himself to the family dog and then takes a swim before heading inside to find that no-one is home. All excited, he immediately begins the search for the refrigerator he has heard about, as he is starving. He winds up in the dryer, the dishwasher and then finally finds the infamous refrigerator. It is all he had ever dreamed it would be and he enjoys himself immensely before washing up in the sink. As he begins to really miss his freinds back in the jungle, he feels sad and he searches for other adventures to keep him occupied. He dances to a few of his favorite tunes on their ipod, then heads for the closet and enjoys a fashion show with the human primates baby clothes that he finds. Just as he lies down to relax awhile he hears voices, the human kind and they are getting louder by the second. There is more than one. Coco begins to get really nervous. What follows is an experience he nor they will ever forget. It will make you smile, laugh and leave you with such a feeling of excitement that you will want to go and visit Coco and all of his friends in person. And fortunately, you actually can.

Monkey Moments Nov 04 2021 An enthralling book on monkeys and apes of the rainforests. Fascinating facts about several primate species are reflected and appealingly narrated from experiential encounters in the wilderness of Borneo. The author brilliantly takes readers through the evolution of man by selectively highlighting the physical features and behavioural biology of the species discussed in the book. Unprecedented destructions of the rainforests have driven countless animal and plant species to extinction, including monkeys and apes. Immediate and effective conservation of the rainforest habitats remain their last hope. In this book, the author is advocating mindful approaches to saving these endangered species from disappearing forever. Evolutionarily, we need to recognise the unique commonality between us humans and the primates. The connectedness goes beyond the evolution of morphological changes and adaptable features. We also share the genesis of learning behaviour and building of culture. Additionally, the book is delightfully illustrated with drawings by the author himself as he reveals the science of nature through the eyes of a naturalist.

A Monkey's Tale Mar 16 2020 A Monkey’s Tale by Nathan Kravetz It was a moonlit night at the rocket base. For weeks the scientists had been preparing for the launching of a new rocket. Reporters were standing by. On this night everyone was asleep except the guard, who carefully kept watch. Suddenly there was a roar that grew louder and louder, and the rocket began to lift off its pad. “It’s going up!” shouted the guard. “It’s blasting off!” yelled the scientists. “What? Where?” called the reporters, as they climbed out of their beds. “Who? Why? When, and how?” Inside the capsule Sam the monkey was pulling switches and pushing buttons as he had been taught.

Everything was according to plan except that the rocket had not been launched by the scientists but by another monkey, Sarah. But this is only the beginning. What happens is important to the whole world and makes a tale of a monkey that is full of fun.

"If we are true to who we are, we will naturally find what is right." "Beauty is in the eyes and mind of the beholder." "What is good in life is not always obvious." These morals are inspired by the teachings Taoist philosopher Chuang Tzu (fourth century b.c.e.), who through charming and sometimes cryptic fables explained to his students the qualities of humility, modesty, simplicity, acceptance, and contentment. In "The Sea Turtle and the Frog," two creatures share their unique perspective on the world. "The Happy Fish" offers a reflection on what makes for a good leader. And "The White Peacock" demonstrates the virtues of a simple life rather than one adorned with material riches. Includes the following classic children's songs: "5 Little Monkey's Jumpin' on the Bed," "Old MacDonald Had a Farm," and "The Wheels on the Bus." "5 Little Monkeys Jumpin' on the Bed," the classic children's story and song features Oboe the monkey and DJ the dinosaur. Oboe's mama discovers that Oboe and his brothers and sisters are jumpin' on their bed. One-by-one they each fall off and bump their head. When Mama calls Dr. DJ, the doctor says, "No more monkeys jumpin' on the bed." But when Dr. DJ gets home to his own family, guess what his children are doing? This classic children's song/story will bring joy, laughter, and smiles to tots and parents alike. Children will learn how to count the monkeys on their fingers and gain an entertaining introduction to subtraction—every time a monkey falls off the bed. "Old MacDonald Had a Farm" is a fun way for children to learn about farm animals and the sounds they make! Old MacDonald (played by Vinko the Bear) is having a typical day on the farm: he feeds the chickens and collects their eggs as the hens "cluck-cluck;" he milks a cow as the other cows graze in the pasture and "moo-moo;" he shears the wool off a sheep as the other sheep envy the newly shorn sheep's haircut and "baa-baa." The only thing that's different about this typical day on Old MacDonald's farm is that young readers are clucking, mooing, baaing, and oinking as they sing the familiar song and learn about life on the farm and the sounds that farm animals make. In "The Wheels on the Bus" six Baby Genius characters join together in this lively, interactive book to show kids how to move when they sing this popular children's song. Each character cleverly illustrates how to move hands and arms to simulate the actions throughout the book. What makes this book so much fun is that the children will be singing learning, and moving with their favorite Baby Genius characters!
